

Response to Amendment

1. The reply filed on 10/29/2010 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The claims which are identified as reading on the elected species do not appear to read on the elected species. For example, claims 5 and 6 are both identified as reading on the elected species. Claim 5 requires both heat exchangers to be arranged in front of the at least one fan in the direction of flow. Claim 6 requires both heat exchangers to be arranged behind the at least one fan in the direction of flow. The only way both heat exchangers can be both in front of and behind the fan is if the fan is reversible. But, according to paragraph [0062], the fan of the elected species (i.e., the embodiment of Figures 4-6) is not reversible. It is additionally unclear to the examiner which other claims should or should not be considered to be embodied by Figures 4-6; a careful reconsideration of all claims by applicant to make sure that these read on the elected Species D is required. See paragraph 3 of the election/restriction requirement and 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALEXIS K. COX whose telephone number is (571)270-5530. The examiner can normally be reached on Monday through Thursday 9:30a.m. to 7:00p.m. EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
